The Information Bulletin consists of:

1. Copies of any special Orders or Determinations issued by the Commission during the month with respect to Alberta Cost of Service, and notice of any Statements of Objection which have been received during the month; and

In the case of gas intended for consumption within Alberta, the amount estimated as cost of service under Sections 11(2)(a)(ii) and 15(3)(b)(i) of the Act were made under the Commission's general directive for the Alberta cost of service.

All determinations are on gross or higher heating value on a dry basis at 15°C and an absolute pressure of 101.325 kPa (kilopascal).

Yours very truly,
